EDUCATION

Maharishi Vidya Mandir, Kumbakonam — *Primary*

Completed foundational education, focusing on basic literacy, numeracy, and social skills. Participated in various activities that fostered teamwork and communication.

Christ The King, Kumbakonam — *Higher Secondary*

Completed higher secondary education with a focus on Computer Science stream. Developed critical thinking, problem-solving, and teamwork skills through various projects and extracurricular activities.

St. Joseph's College Of Engineering, Chennai — *Under-Graduate*

SEPTEMBER 2023 - PRESENT

Currently pursuing a Bachelor's degree in Information Technology, Engaged in hands-on projects and technical workshops to enhance practical skills and knowledge in emerging technologies.

PROJECTS

Calculator — *Built using HTML, CSS and JavaScript*

Developed a responsive calculator application that performs basic arithmetic operations. Utilized HTML for structure, CSS for styling, and JavaScript for functionality. The project enhanced my skills in user interface design and interactive programming, showcasing my ability to create dynamic web applications.

Flight Booking — *Built using HTML, CSS and JavaScript*

Developed a flight booking application that allows users to book flights. Implemented a user-friendly interface with HTML and CSS, while JavaScript handled for multiple enhancement features. This project strengthened my skills in web development and enhanced my understanding of user experience design.

Sales Dashboard — *Built using Excel*

Developed an interactive Sales Dashboard in Excel to visualize.
